ABOUT US :

Solar power, also known as solar electricity, is the conversion of energy from sunlight into electricity, either directly using photovoltaics (PV) or indirectly using concentrated solar power. Solar panels use the photovoltaic effect to convert light into an electric current.

Green Power is a dynamic and innovative system that is transforming the way people do business and experience financial independence. At Green Power we believe in empowering individuals to achieve their dreams and create a life of abundance.

MISSION

'Green Power' is committed to providing economic independence to the unemployed youth of India and making them self-reliant through this system.

VISION

Our first objective is micro credit scheme, second objective is to set up trading institute (Indian, forex, crypto). Along with this to give an idea about block chain basics and modern banking system 'CBDC' and human hair processing and transportation business, which will improve the Indian economic system . Also encourage investment in modern specialized manufacturing industries

A vibrant graphic with a pink and purple gradient background. The text "REFER A FRIEND" is written in large, white, bold, sans-serif capital letters. To the right, there are illustrations of a man standing on a gift box holding a megaphone, two women walking, and stacks of gold coins. The background of the entire image shows a field of solar panels under a sunset sky with wind turbines in the distance.
